Bartolome J. Canellas (6SF-RL)
Remedial Project Manager
U.S. Environmental Protection Agency, Region 6
1445 Ross Avenue, Suite 1200
Dallas, Texas 75202-2733

Dear Mr. Canellas:

The U.S. Department of the Interior received and has reviewed preliminary information provided by the U.S. Environmental Protection Agency, Region 6, for the Wilcox Oil Company NPL Site, Creek County, Oklahoma. As a result, we have determined that resources under the management, jurisdiction, protection, and/or of interest to the DOI may be present at or in the vicinity of the Site, and pathways may exist for migration of contaminants in amounts that may lead to exposure and risk to those resources. Accordingly, we wish to participate in Superfund planning activities for this Site. Photos taken by FWS last summer are included on page 3 of this letter. In this regard, the following are DOI Bureau offices with personnel that should be given the opportunity to be included on the Site Planning Team (designated points of contact included) and be provided all relevant and appropriate Superfund planning material and information pertaining to the Wilcox Oil Company NPL Site to enable their participation:
